International Brand Licensing plc
("IBL" or "the Company" or "the Group")
Interim Results

CHAIRMAN'S STATEMENT

I am pleased to report the Group's interim results for the 6 month period ended 30 June 2009. The Group's performance should be considered against the backdrop of a very depressed sporting goods industry, both in the UK and internationally. Several of the key global sports brands have reported record decreases in both top line sales and profitability, whilst the majority of sports retailers have seen their sales and margins eroded by the well documented economic crisis.

Highlights: -

- During the period the Group reported a loss before taxation of £170,000 (2008: profit of £248,000). There were two main reasons for the reduction in earnings compared with last year:
 - The prior year interim results included an exceptional profit of £317,000, being the profit generated in June 2008 on the sale of the Admiral trademarks in Turkey;
 - Reduced royalty income due to the successful Admiral trademark sale in certain territories during the past two years, including both Japan and South Africa during the latter half of 2008.
- Since the period end, the Group disposed of its Australian and New Zealand Admiral trademarks for a cash sum of £117,000. These are territories from which the Group had received no royalty payments in recent years.
- The Group continues to negotiate with a number of its licensees in relation to the disposal of further trademarks. If successful, this will further strengthen the Group's cash resources and balance sheet in the coming months.

- The Group continues to explore new territories where Admiral is not yet represented.
- Reduced operating expenses following further cost reductions within the Group.

Although it is disappointing to report a loss for the period, the Board continues to exploit every opportunity in an effort to strengthen the Group's balance sheet.

NOTES FORMING PART OF THE INTERIM FINANCIAL STATEMENTS

1. General Information

International Brand Licensing plc is a public limited company incorporated in the United Kingdom (Registration Number 04347937). The address of the registered office is 14 Kinnerton Place South, London SW1X 8EH. The principal activity of the Company is that of developing and exploiting a portfolio of sports and lifestyle brands, trademarks and logos.

The comparative figures included in this report for the six months ended 30 June 2008 are unaudited. The twelve months to 31 December 2008 are audited.

The financial information in this statement does not constitute statutory accounts under Section 434 of Companies Act 2006 and was not subject to a formal review by the auditors. The financial information in respect of the year ended 31 December 2008 has been extracted from the statutory accounts which have been filed with the Registrar of Companies. The auditors' report on those accounts was unqualified and did not contain any statement under Section 498 (2) or 3 of the Companies Act 2006.

The interim financial information has been prepared on a basis consistent with the accounting policies set out in the Group's statutory accounts for the year ended 31 December 2008. Fixed annual charges are apportioned to the interim period on the basis of time elapsed. Other expenses are accrued in accordance with the same principles used in the preparation of the annual accounts.

2. Intangible assets

Intangible assets represent acquired trademarks and are recorded at historic cost. No amortisation is charged as they are regarded as having infinite lives. The annual results reflect the expenditure incurred in the support and development of these brands. In addition, the trademarks are supported by the existence of international licensee

agreements, which establish obligations as to guaranteed minimum licence income and marketing arrangements with the view to maximising long-term growth. The directors believe that the licence agreements will be renewed at the end of their legal expiry dates and that the value of the trademarks will be maintained. The carrying values are reviewed annually and written down to the estimated recoverable amount as necessary.

3. Share-based payment

The group operates share incentive and option schemes for directors and employees. For all share awards the fair value as at the date of grant is calculated using an option pricing model and the charge to the income statement is recognised as a staff cost over the vesting period.

4. Segmental reporting

The board considers that the Group has a single business segment which generates income by licensing its two brands. The revenue, expenditure and result reported in the income statement and the assets and liabilities reported in the balance sheet all relate to this single segment. An analysis of turnover by geographical destination is given below:
