About EKF Diagnostics Holdings plc (www.ekfdiagnostics.com)

EKF is a leading point-of-care diagnostics and central laboratory assay manufacturer with an estimated 80,000 hemoglobin, hematocrit, HbA1c, glucose and lactate analysers in regular use across more than 100 countries. EKF specialises in developing tests for use in anemia and diabetes diagnosis and management, as well as providing a portfolio of reagents for use in clinical chemistry analysers.

EKF specialises in the development, production and worldwide distribution of point-of-care analyzers and clinical chemistry reagents for use in hospital and research laboratories, doctor's offices, blood banks and for in-field anaemia screening programmes. EKF is also a bulk manufacturer of enzymes and has custom manufacturing facilities across sites in the US, UK and Europe for a variety of life science products. Driven by customer demand EKF has invested significantly in increasing the Company's fermentation capacity. The Company's capabilities and capacity in contract manufacturing for sample collection, tests and test kits have seen dramatic growth following strong demand for during the COVID-19 pandemic, and these income streams are now being diversified for application to other non-COVID areas of diagnostic testing, molecular disease and forensic test manufacture.

In May 2021, EKF outlined its strategy through to 2024 for delivering additional growth. As well as the growth expected in Contract Manufacturing across Life Sciences, molecular diagnostics and other applications, the Company expects to leverage existing distribution channels for organic growth, both in the core business and from additional products to expand the core range, but also through executing earnings enhancing acquisitions and delivering further value creating investments associated with the preferred partnership agreement with Mount Sinai Innovation Partners.

In October 2021, EKF completed the acquisition of Advanced Diagnostic Laboratory LLC, a Texas based testing laboratory certified under the Clinical Laboratory Improvement Amendments ("CLIA") for high complexity testing. The laboratory provides testing for a variety of clinical, forensic and microbiological sample types using a range of analytical techniques. This acquisition positions EKF as a leading 'one stop' provider of diagnostic products and services from sample collection to results.
