**Purchase of Own Shares  
& Completion of Share Buyback Programme**

EKF, the AIM-listed global diagnostics business, announces that it has purchased a further 200,000 of its ordinary shares at a price of 40 pence per share. The ordinary shares purchased will be held in treasury.

This transaction marks the successful conclusion of the share buyback programme as set out in the announcement on 29 March 2022. Under that programme, a total of 9,000,000 ordinary shares were purchased at an average cost of 43.29 pence per share. Buying back this amount of ordinary shares at current levels more than offsets the dilutive effect of the new ordinary shares issued in 2021.
